Our Missions

&

Our Actions

Stimulating dialogue

ART'S PLANET organizes exhibitions and events at international conferences, encouraging discussions about climate challenges and their solutions.

Gathering talents

ART'S PLANET offers artists a unique opportunity to share their vision of the world and climate issues through their artistic creations.

Leaving, Yondela S. SOLE, SOUTH AFRIQUE, Paint

We dream of a world where Art, in all its forms, promotes understanding of climate issues and encourages collective action. ART'S PLANET stimulates debate, awakens awareness and encourages concrete action for a future of solidarity and resilience.

Raising public awareness

By highlighting the effects of climate change through Art, Heritage, and Culture, ART'S PLANET aims to enhance collective awareness and encourage reflection.

Valuing art as a tool for change

The initiative states that Art can be a lever for social and environmental change, raising awareness and motivating action against climate impacts.

Inspiring concrete actions

ART'S PLANET reinvests the funds from art sales to support sustainable development projects with the ENERGIES 2050 association and its partners.

Our Impact
